

TEAM STES HYPERION

We clutch, We Endeavour, We are HYPERION

Sponsorship Proposal for
SASOL 2026

Executive Summary

Our Next Goal

- Competing in SASOL Solar Challenge in South Africa.
- It is a prestigious biennial event testing technology, engineering and endurance.
- We will be the first Indian Team to participate in SASOL.

Value for Partners

- Unique marketing and talent acquisition platform.
- Media exposure at national and international levels.
- Connections with people working on cutting edge technology.

Why this matters?

- Opportunity to showcase Indian Engineering skills on international platform
- Platform to highlight talent of future leaders in technology

Partnership Opportunities

- Building strong Industry–Institute collaborations that foster mutual growth and create lasting value for both parties.
- Mentorship and industry insights will help us make better engineering decisions.

About Team STES Hyperion

Our Mission

Our mission is to foster a culture of hands-on learning, interdisciplinary collaboration, and engineering excellence. We are dedicated to **designing and building innovative electric and solar vehicles** that push the boundaries of technology. By doing so, we aim to inspire the next generation of engineers and contribute to the global push for sustainable transportation.

Our History

Founded in 2016, Team Hyperion was created with the vision of providing students with a real-world platform to apply classroom knowledge to complex engineering challenges.

Our journey has been defined by a commitment to innovation and perseverance. Past achievements include **2 times national championships** and **3 times runner up** in national events.

These successes have built the foundation for our most ambitious project yet: the Sasol Solar Challenge 2026.

Achievements

Our Legacy

- **8+ years of excellence** in solar electric vehicle innovation
- **45+ prestigious trophies** – consistent success
- Alumni now at **leading global companies** worldwide
- **Strong industry exposure** through real-world engineering challenges
- **Featured in top newspapers & media** for our innovations and success
- A team culture built on **passion, resilience & creativity**

Achievements

Season 7.0:-
Overall National Champions at SEVC 2024.

Awards include:-

- HOH Winner.
- Endurance Winner.
- Championship trophy
- Rolling trophy
- Best Design
- Dynamic Champion
- Static Champion

Achievements

Season 8.0:-

1st runner up at SEVC 2024 and ESVC 2024

Awards include:-

- AIR 2 Overall
- Best Design
- Best Crosspad
- Best Design
- Best Solar Performance
- Best Autonomous
- Best CAE

Media Coverage

2000+ followers across multiple platforms

More than 1.5 Million views on social media

Website for sponsors

Our Vehicle: Anantam

Solar Array

Utilizes high-efficiency photovoltaic cells to maximize energy capture from sunlight.

Battery Pack

Equipped with a robust Lithium-Lithium-Phosphate battery and an advanced Battery Management Management System (BMS).

Drivetrain

Features a cutting-edge hub motor motor design, ensuring minimal energy losses during operation.

Aerodynamics

Achieves an ultra-low drag coefficient, meticulously optimized optimized through Computational Computational Fluid Dynamics (CFD).

DAQ System

Integrated Data Acquisition System provides real-time telemetry and comprehensive data logging for performance analysis.

Why Partner with Team Hyperion? A Mutually Beneficial Alliance

1

Brand Visibility

Gain extensive exposure through vehicle branding, team apparel, media coverage, and our active social media platforms.

2

Innovation Showcase

Align your brand with cutting-edge sustainable technology and engineering excellence.

3

Talent Pipeline

Connect with bright, ambitious engineering students and future leaders.

4

CSR & Sustainability

Demonstrate your commitment to corporate social responsibility and environmental stewardship.

5

Global Reach

Be part of an international event, reaching diverse audiences and markets.

Sponsorship Tiers and Benefits

Gold Tier

₹1,50,000+

- Large logo on car
- Dedicated social media posters
- Banner
- Website hyperlink
- Launch showcase videos
- Exhibition publicity

Silver Tier

₹50,000 – ₹1,50,000

- Medium logo on car
- Institute fest publicity
- Website logo placement
- Team event publicity
- Social Media Mentions

Bronze Tier

Up to ₹50,000

- Small logo on car
- Website logo
- Social Media Mentions

In-kind Sponsorship

We welcome donations of materials, components, or services in lieu of cash. The equivalent cash value of these donations will determine your sponsorship tier. This includes items such as solar cells, carbon fiber, adhesives, electric motor, battery cells, or professional services like CNC machining and testing facilities.
